PROFESSIONAL SUMMARY

Product-minded QA Lead with 9+ years delivering accessibility-focused quality for US enterprise eLearning clients. Product manager of a social and life-skills application for adults with Intellectual and Developmental Disabilities (IDD), defining the roadmap and managing the product. Transitioning into product management, with case studies in RICE, OKRs, TAM/SAM/SOM, and PRDs, plus working knowledge of Tableau, SQL, and Python.

WORK EXPERIENCE

Product Manager Consultant | (Freelance), Bangalore | Nov 2025 – Present

- Owned the mobile application end to end, defining the roadmap and managing delivery of three core features: Interactive Stories (choose-your-own-path scenarios that build social skills, problem-solving, and decision-making), Community Connection (moderated chat groups and game rooms), and Relationship Coaching (trained coaches guiding healthy friendships and dating relationships).
- Aligned cross-functional stakeholders across developers, testers, graphic designers, animators, therapists, subject matter experts, and management to turn product requirements into shipped releases.
- Ran usability testing across Windows, Android, and iOS, surfacing 2-5 actionable usability issues per testing cycle and translating findings into structured product feedback for development teams.
- Defined quality requirements, milestones, and test coverage plans for each release, tracking defect resolution against the roadmap to keep releases on schedule.

Quality Analyst Team Lead | NuAge Edtech Pvt. Ltd., Bangalore | Mar 2022 – Oct 2025

- Drove product quality strategy for a portfolio of 10+ WCAG 2.1 AA-compliant SaaS eLearning products serving US K-12 clients and set the quality roadmap, defined acceptance criteria per release, and aligned a 16-person QA team to business, regulatory, and accessibility outcomes for thousands of learners.
- Introduced Bugzilla bug-tracking, reducing defect resolution time by 15% and improving cross-team defect visibility across product and engineering.
- Represented QA directly in client-facing meetings with US stakeholders, gathering requirements and ensuring full product-client alignment on release and compliance deliverables.
- Collaborated cross-functionally with developers, designers, and content teams to validate curriculum accuracy and resolve defects efficiently, conducting cross-browser and cross-device testing across Chrome, Firefox, Edge, Safari, Windows, macOS, Android, and iOS.

Senior Quality Analyst | NuAge Edtech Pvt. Ltd., Bangalore | Feb 2021 – Feb 2022

- Acted as quality owner for new product launches and partnered with Product Development to define release-readiness criteria against US client requirements, ensuring every module met UI, content, and accessibility standards before going live.
- Led a 6-person QA team executing regression, exploratory, and cross-device testing; collaborated with product and engineering to resolve defects before every release cycle.
- Partnered with Product Development to establish QA standards and workflows, enabling earlier defect detection across the release cycle.

Quality Analyst | Focus Edtumatic Pvt. Ltd., Bangalore | Mar 2017 – Jan 2021

- Delivered WCAG 2.1-compliant QA for the San Francisco Department of Public Health (SFDPH) platform and a US healthcare-sector engagement alongside VLC and CERT, shaping UI and content decisions by synthesising QA findings into user-impact-prioritised recommendations.
- Revamped UI and content contributing to measurable improvement in user engagement and project delivery efficiency across all modules.
- Reviewed and improved content accuracy and adherence to client style guidelines across educational web applications, directly shaping UX and content decisions.

CORE SKILLS AND TOOLS

UX: UX Evaluation | UI Evaluation | Usability Testing | Cross Browser & Device Testing| Accessibility Testing

Data: Tableau | Power BI | SQL | Python | Advanced Excel

Tools: JIRA | Bugzilla

Product: PRD Writing | RICE Framework | User Research | Market Sizing | Gamification | Stakeholder Management | Cross-functional Teams

Analytics: AARRR Funnel | A/B Testing | Retention Metrics | Cohort Analysis

EDUCATION

PG Diploma in Data Science | IIIT Bangalore - 2022

B.E. in Computer Science | CMRIT College, Bangalore - 2015
